

Family hubs – family survey!

Are you in touch with family hubs? Have your say!

A team of researchers have been asked by the Department for Education (DfE) to carry out research on family hubs. Family hubs provide a range of support and activities for families, such as infant feeding support, youth services, and mental health support.

Your views matter!

Your feedback will help a national research project. We want to know family views and experiences of help and support, so we know **what helps and what could be better for families, just like yours.**

Complete a short survey to share your views and be in with a chance of **winning a £100 shopping voucher:**

- Scan the QR code
- **The survey is open from 15th January – 18th February 2024**

Have a question about the survey or research?
