# MAZIN & KHALID'S STORY

Brothers Mazin and Khalid are shining examples of what's possible when opportunity meets determination. Through the **Bridge to Employment** programme, a partnership between ACH and Bristol Waste Company, they've transformed their futures and are now helping transform Bristol.

Originally from Sudan, Mazin and Khalid joined the initiative to gain essential skills and work experience. After taking part in tailored training and practical placements, they were offered permanent roles as refuse and recycling loaders.

"This opportunity gave us hope and a future," says Mazin. "We're proud to give back to the community that welcomed us."

The programme doesn't just benefit participants, it enriches employers too, fostering inclusion and bringing new energy to local services.
